

Overview of Flood Inundation Map for the PUNJAB Province, Pakistan

Primary Source

Overview of Flood Inundation Map for the Punjab Province. This map presents the flood inundated areas using ALOS/PALSAR RGB Composite satellite data during the crisis (2010/08/05) and before crisis (2010/07/19) were merged to spectrally differentiate flood inundated areas. Bright red closer to the river lines are the high flooded areas.

Please send ground feedback to MENRIS Division, ICIMOD.
